

THE BLUE MOUNTAINS BOTANIC GARDEN PRESENTS

A LEAF, A TREE, A FOREST ...

# WILD GARDENS OF THE BLUE MOUNTAINS

A PHOTOGRAPHIC EXHIBITION BY IAN BROWN

Saturday 2 September – Sunday 22 October 2017

Domestic gardens are designed by gardeners whilst wild plant communities arise from natural processes. Sometimes random and chaotic, wild gardens can reveal order and beauty by allowing the underlying rules of nature to prevail. In this exhibition Ian Brown explores the richness and beauty of wild Blue Mountains bush in fine art photographs ...from leaf, bark and flower to massive eucalypts, rainforests and heathland.

9.30am – 4.30pm daily. Free entry  
Blue Mountains Botanic Garden
